Clinical Director: Ali Ugur Emre, MD

Ankara Guven Hospital Breast Unit was founded in October 2011. Breast care dedicated consultants on breast surgery, radiology, pathology, nuclear medicine, medical oncology, radiation oncology and plastic/reconstructive surgery work together in a multidisciplinary setting. Our team offers a complete spectrum of diagnostic and therapeutic procedures and also aftercare facilities. One of the advantages of the Breast Unit is performing all the diagnostic procedures in a single session in most of the cases. The team has weekly multidisciplinary meetings to discuss the management of patients, both pre- and postoperatively.
