Synergy among Breast Units

# 🗧 Innovacia Cancer Center - Lyutizh, Ukraine

**General Information** 

New breast cancer cases treated per year 426

Breast multidisciplinarity team members 16 Radiologists, surgeons, pathologists, medical oncologists, radiotherapists and nurses

Clinical Director: Shota Maglakelidze, MD

Today, the INNOVATION clinic's mammology centre has one of the most comprehensive diagnostic and treatment bases, which allows for quick and accurate diagnostics, performs all the most modern treatment methods, and conducts a wide range of organ-preserving operations, including reconstructive plastic surgery. The oncology centre's treatment programs allow solving two seemingly opposite tasks - complete tumour removal with the best cosmetic result for a patient.
