General Information

| New breast cancer cases treated per year | 650 |
| Breast multidisciplinarity team members | 31 |
| Radiologists, surgeons, pathologists, medical oncologists, radiotherapists and nurses |
| Clinical Director: Hans Wildiers, MD |

The multidisciplinary breast centre from the University Hospitals Leuven is the largest breast centre in Belgium and treats more than 600 new breast cancer patients per year, in a highly multidisciplinary and structured way. Translational and clinical research is integrated in all activities.

University Hospitals Leuven

BCCERT - Breast Centres Certification
Expiration date: 01 January 2016

This Centre has notified to be certified and, as such, been requested to upload the certification document for further information. When the certification document/s is/are provided, it is/they are made available hereafter.
### Available services

**Radiology**

- Dedicated Radiologists: 3
- Mammograms per year: 29383
- Breast radiographers
- Screening program
- Verification for non-palpable breast lesions on specimen
- Axillary US/US-guided FNAB
- Clinical Research

**Available imaging equipment**

- Mammography
- Ultrasound
- Magnetic Resonance Imaging (MRI)

**Available work-up imaging equipment**

- Computer Tomography
- Ultrasound
- Magnetic Resonance Imaging (MRI)
- PET/CT scan

**Primary technique for localizing non-palpable lesions**

- Hook-wire (or needle localization)
- Charcoal marking/tattooing
- ROLL: radio-guided occult lesion localization

**Available breast tissue sampling equipment**

- Stereotactic Biopsy (Mammography guided)
- Core Biopsy (Tru-cut)
- Vacuum assisted biopsy
- Ultrasound-guided biopsy
- Fine-needle aspiration biopsy (FNAB, cytology)
- Core Biopsy
- Vacuum assisted biopsy
- MRI-guided biopsy
- Core Biopsy
- Vacuum assisted biopsy

### Breast Surgery

- New operated cases per year (benign and malignant): 1000
- Dedicated Breast Surgeons: 4
- Surgeons with more than 50 surgeries per year: 4
- Breast Surgery beds: 15
- Breast Nurse specialists: 20
- Outpatient surgery
- Intra-operative evaluation of sentinel node
- Reconstruction performed by Breast Surgeons
- Clinical Research

**Primary technique for staging the axilla**

- Axillary lymph node dissection
- Sentinel lymph node biopsy:
  - Blue dye technique
  - Radio-tracer technique
  - Blue dye + Radio-tracer
- Axillary sampling
Reconstructive/Plastic Surgery

- Reconstructive/Plastic surgeons (3)
- Immediate Reconstruction available

Type of breast reconstructive surgery available

- Remodelling after breast-conserving surgery
- Reconstruction after mastectomy:
  - Two-stage reconstruction (tissue expander followed by implant)
  - One-stage reconstruction
- Autogenous tissue flap
  - Latissimus dorsi flap
  - Transverse rectus abdominis (TRAM)
- Free-flaps (free TRAM, DIEP, SIEA, gluteal, etc.)
- Surgery on the contralateral breast for symmetry

Pathology

- Dedicated Breast Pathologists (1)

Available studies

- Cytology
- Haematoxylin & eosin section (H&E)
- Surgical specimen
- Sentinel node
- Core biopsy
- Frozen section (FS)
- Surgical specimen
- Sentinel node
- Immunohistochemistry stain (IHC)
  - Estrogen receptors
  - Progesterone receptors
  - HER-2
  - Ki-67

Other special studies available

- Fluorescence in-situ Hybridization for HER-2 gene (FISH)
- Oncotype Dx (21-gene assay)
- MammaPrint (70-gene microarray)
- Prediction Analysis of Microarray 50-gene set (PAM 50)

Parameters included in the final pathology report

- Pathology stage (pT and pN)
- Tumour size (invasive component in mm)
- Histologic type
- Tumor grade
- ER/PR receptor status
- HER-2/neu receptor status
- Peritumoural/Lymphovascular invasion
- Margin status

Medical Oncology

- Dedicated Breast Medical Oncologists (2)
- Outpatient systemic therapy
- Clinical Research
Radiotherapy

- Dedicated Radiation Oncologists
- Clinical Research

Available techniques after breast-conserving surgery (including experimental)
- Whole-Breast RT (WBRT)
- Partial breast irradiation (PBI):
  - External beam PBI
  - Interstitial brachytherapy
- Targeted brachytherapy (MammoSite, SAVI applicator, other devices)
- Intra-operative RT (IORT)

Multidisciplinary Meeting (MDM) / Tumour Board (TB)

Regular MDM/TB for case management discussion
- Two a week
- Weekly
- Every two weeks
- Other Schedule

Cases discussed at MDM/TB
- Preoperative cases
- Postoperative cases

Specialties/services participating in MDM/TB
- Radiology
- Breast Surgery
- Reconstructive/Plastic Surgery
- Pathology
- Medical Oncology
- Radiotherapy
- Genetic Counselling
- Breast Nurse Service
- Psycho-oncology

Further Services and Facilities

Nuclear Medicine
- Lymphoscintigraphy
- Bone scan
- Positron Emission Tomography (PET)
- PET/CT scan

Rehabilitation
- Prosthesis service
- Physiotherapy
- Lymph-oedema treatment

Genetic Counselling
- Specialist Providing Genetic Counselling/Risk assessment service:
  - Dedicated Clinical Geneticist
  - Medical Oncologist
  - Breast Surgeon
  - General Surgeon
  - Gynaecologist
- Genetic Testing available
- Surveillance program for high-risk women

Data Management
- Database used for clinical information
- Data manager available

How to reach us

University Hospitals Leuven
Herestraat 49
3000 Leuven,
Phone: +3216346900
Fax: +3216346901
E-mail: hans.wildiers@uzleuven.be
Web-site: http://www.uzleuven.be/mbc

From airport:
Direction Leuven, when approaching Leuven by the highway, follow the arrows 'UZLeuven'.

By bus or sub-way/underground:
Leuven train station is approximately 4 km away from the hospital. Buses leave every 10 minutes. Take one of the following buses towards the city centre (stadscenrum): 16, 333, 334, 335, 338, 370, 371, 373 or 374 to Gasthuisberg. The bus stop is right in front of the hospital main entrance. For more information, call De Lijn bus company at +32 070-220 200.

By car:
Via E40 MOTORWAY: between exits 22 and 23, take E314 motorway. Then follow directions as for via E314 motorway below. Via E314 MOTORWAY: take exit 17 and follow directions to Leuven as far as the ring road (Brusselsepoort). Turn right to the ring road and leave it at the first exit: UZ Leuven. Follow the signs at the roundabout next to the sculpture called Het Teken. When you leave the hospital, if you want to go back to the E314 motorway, follow the signs at the roundabout. Via the RING ROAD: if you are on the outside of the ring road, follow the ring road until just behind the Brusselsepoort to the signs for UZ Leuven. Follow directions to
the roundabout at the sculpture called Het Teken. If you are on the inside of the ring road: follow the ring road until just behind the Tervuursepoort junction. Then follow directions for UZ Leuven and then UZ Gasthuisberg.
