Breast multidisciplinary team members 19

Radiologists, surgeons, pathologists, medical oncologists, radiotherapists and nurses

Clinical Director: Denys Pominchuk, PhD

Based on the Medical Center 'VERUM Expert', there is a modern breast unit consisting of 6 onco-surgeons, 1 plastic surgeon, 2 medical oncologists, a radiologist and 2 radiologist's physicians. Based on the clinic, patients can go through all kinds of diagnostic studies regarding breast pathology and annual proactive examinations. In the breast department, all types of biopsies are performed in the nodular formations of the mammary gland. Breast surgery is represented by a wide range of interventions: lumpectomy, lumpectomy with lymph node sampling, symmetrizing operations, reconstructive plastic surgery with the use of expanders and implants as one-step and delayed, augmentation and reduction of mammary glands. The department has facilities for chemotherapy treatment of patients and international clinical trials. The clinic practices a multidisciplinary approach with the inclusion of doctors of all specialities in the consultation: an oncologist, a plastic surgeon, a clinical oncologist, a radiologist, a medical radiologist and a pathologist.
